## The EpiSouth Network

Starting as an EU project, the EpiSouth Network struggled to develop its Mediterranean vocation. From an initial involvement of 5 countries (Italy, Spain, France, Greece, and Bulgaria), it finally includes ALL the Mediterranean countries (27 countries from Southern Europe, Balkans, Middle East, and Northern Africa) and partners from collaborating institutions.

The EpiSouth Project has been closed in June 2010 but the network activities are continuing in 2010-2013 through the EU-funded Project called "EpiSouth Plus".
