Health and enlargement – Croatia

By Sylvain GIRAUD, Head of Unit D1 Strategy and International, Directorate D Health Systems and Products, Directorate General for Health and Consumers, European Commission

On 1 July 2013, Croatia will join the EU as 28th European Union Member. The 10 year long enlargement process steered Croatia to incorporate EU public health legislation,

guidelines and best practices.

Since Croatia applied for EU membership, public health reforms have materialised through EU negotiations. Public health experts acquired technical knowledge and skills to implement the EU public health acquis through enlargement funding. Facilities for handling blood, tissues and cells are being transformed according to EU technical requirements. Further administrative capacity strengthening should improve [...]
